## **City Zoning Cases**

**CASE NUMBER Z-56-2021** Applicant: Sandra Sims

REQUEST: R-1 Single-Family Residential District to R-4 Multiple-Family Residential District

LOCATION: Property fronting on the north/west frontage of Edmondson Ferry Rd., 365+/- feet north of the Hawkins Rd. & Edmondson Ferry Rd. intersection.

TAX MAP:079K PARCEL: B 027.00, B 028.01 ACREAGE: 2.5 +/-

REASON FOR REQUEST: To develop 16 +/- townhomes.

Mr. Spainhoward read the case and gave the staff recommendations:

### **DISAPPROVAL**

1. The proposed zoning request is inconsistent with the adopted Land Use Plan.
2. The proposed request is out of character with the surrounding development pattern.
3. The road frontage/access for the property has encumbered sight distance & it is not recommended to increase density under the present conditions.
4. Adequate infrastructure serves the site and no adverse environmental issues were identified relative to this request.

Mr. Spainhoward stated that as of 4:30 PM 10/25/2021 there have been no formal comments.

Brian Bryant spoke in favor the case stating that the property is not in close proximity to multi-family but it does lead to multi-family and over time he believes there will be more multi-family.

Mr. Powers asked about the sight distance issues. Mr. Bryant stated that it had been turned in by Mr. Bagwell last week.

Mr. Spigner asked if we (Staff and Commission) have something from the civil designer. Mr. Spainhoward stated it had been received and proceeded to read the email. "The property is located on the NW side of Edmondson Ferry Road, totals approximately 2.4 acres, and is identified as parcels 79K-B-27.00 and 79K-B-28.01. The entrance to the property is located 385' north of the intersection of Hawkins Road and Edmondson Ferry Road, and 2,800' south of 41-A By-pass. Edmondson Ferry Road is classified as an urban collector and the posted speed limit is 30 mph. The AASHTO "Policy on Geometric Design of Highways and Streets" recommends a minimum stopping sight distance of 200' for 30 mph design speed and recommends a minimum stopping sight distance of 250' for a 35 mph design speed. The subject property has 92' of road frontage on Edmondson Ferry Road. From the entrance to the property sight distance was measured in both directions. Looking to the south, toward Hawkins Road, the sight distance was measured to be 385'. The intersection at Hawkins Road is easily visible. Looking NE, toward 41-A By-pass, the sight distance was measured at 190'."

Mr. Kimbrough asked if there were any comments from the street department besides the sight distance. Mr. Cowan came forward and stated that they had standard comments that the drainage would be evaluated at the plan process stage. He stated from the sight standpoint it would have to meet all requirements during our permitting process.

There being no more discussion, Mr. Hadley made motion to recommend disapproval. The motion was seconded by Mrs. Streetman. Mr. Rocconi voted nay and all others were in favor. Motion for disapproval passed.
